20 April 1977

ENGLISH ONLY

COMMITTEE ON NATURAL RESOURCES
Fifth session
Geneva, 9-20 May 1977
Item 4 of the provisional agenda. World energy and minerals situation - critical issues and prospects: (a) Overview of the world energy situation and requirements of developing countries

STATUS OF THE USE OF GEOTHERMAL ENERGY AND FUTURE PROSPECTS FOR DEVELOPING COUNTRIES

Report of the Secretary-General

Corrigendum

Cover page, line 6

Subitem 4 (a) should read

(a) Overview of the world energy situation and requirements of developing countries

Paragraph 54

Lines 4, 5 and 6 should read

applicable to the range in capital cost given above, is 14 mills-24 mills per kWh. In comparison, the combined fixed and variable costs of an oil-fired plant, at 1976 oil prices, would be about 31 mills per kWh.
